**Now the IBM Correcting Selectric III
the standard of excellence in typewriters
is available to you on a rental basis**

Help meet short term typing needs

Temporary help. Peak work loads. Awaiting delivery of a new typewriter. These and other considerations might very well mean that you should rent an IBM Correcting Selectric III Typewriter.

Improved quality and advanced features

The IBM Correcting Selectric III Typewriter helps make short work of routine typing tasks, because it allows typists to correct errors right on the keyboard. It also makes it possible for typists to produce letter perfect documents on the first draft.

Reasonable rates

Whether you rent for the minimum two weeks or longer, you'll find a schedule of rates to meet your requirements. And, when you rent an IBM Correcting Selectric III Typewriter, you'll also receive an IBM typewriter ribbon, an IBM Lift-off Tape and two type elements of your choice. And, if needed, dependable IBM service is also available.

Delivery and pickup service

IBM will be pleased to arrange delivery and pickup of your rental typewriter. When and where you wish. And at a reasonable charge. To arrange a rental, just call your local IBM Office Products Division Branch Office.
